This is the area I grew up in and even though I no longer live there, I still long for the wonderful golds and blues of this part of our great nation. The photography is sharp and totally beautiful.0 of 0 people found the following review helpful. an excellent coffee table book of an incredible placeBy Benjamin DentonThe photos are outstanding. The Graetzes are able to get to a lot of places that are beautiful and way off the beaten path. The accompanying texts are excellent, and describe the various locations with history and colorful stories that only the locals in those locations know. Every one of the Graetzes' Montana books that I have are great. This one, Montana East of the Mountains Vol. 2, and Missouri Musselshell Rivers are my favorites, but all of them are great. Of any Montana or Saskatchewan travel pictorial book that I've seen so far, the Graetzes' photos have come the closest to

being able to truly convey these awe-inspiring big sky vistas and feeling.

Showcases the unique scenic beauty, wildlife, and culture of eastern Montana. Please visit us at [FarcountryPress.com](http://FarcountryPress.com) for more information and more Northern Rockies Publishing titles!
