We're planning a trip this summer, and this book has really helped us be better informed as to what places to camp. It tells which take reservations and which don't, what kinds of bathroom facilities are present, the elevation (important for getting an idea of temperature ranges), and so on. Also, it's well organized by region and the maps make it easy to figure out which campsites are in the area where you want to camp.
Highly recommended if you're thinking about camping in California.

I've just completed a 30-day camping road trip with my son. We camped and hiked around northern CA using this book and the companion hiking CA book by Moon. They were invaluable. What I appreciate about this book is that it consolidates all of the various camping options into one place. Combine that with the fact that the hiking book uses that same map divisions which makes it easy to plan hikes based on where we were camping. Great job!

I am planning a trip up the California coast and sure, I could use the internet to research camping areas, but this book lays out who takes tents and who doesn't. This has saved me a lot of time weeding out useless sites. I appreciate the honesty about sites that may have issues with thieves or questionable activities. Great book with great descriptions.
