By Patto The unique personality of each town along the coast comes through vividly. I was able to map out an itinerary built around the things that interest me most rewarding museums, fun shopping, picturesque architecture and dramatic coastal scenery... Those interested in beaches, golf courses and lighthouses will also get the guidance they

need in these pages. The listings and descriptions of lodgings are excellent and offer something for everyone families on a budget or couples in search of romantic ambience and gourmet dinners. Great restaurants are noted, as well as obscure lobster shacks. There are hotels, bed breakfasts, historic inns and some campgrounds included. This is not primarily a picture book, although there are some color photos, but I wanted information, not pictures, so I had problem with this. The mostly black and white photos throughout are enough to convey the charm of coastal Maine. The maps are simple but helpful for planning. You'll still need a real map to drive from town to town. I bought a handful of other guidebooks, but this is the one I found most helpful. 2 of 2 people found the following review helpful. Love my Maine Book! By liz phil What an awesome book on Maine. Everywhere and everything to do in each town is very well written. 487 pages of ideas to do. Beautiful colored pictures to get the feel of what the author is explaining. Maps also to provide on how to get there. My whole family loves this book. Having family from Maine they too were amazed about how this book has so much information. This author really took the time out to also give you .coms and how much each event is and when things are open and which are closed at certain seasons. It really made planning a whole lot easier. I highly recommend his book to anyone that wants to have an easy travel to the gorgeous state of Maine. A book that can last for a very long time. My money was very well spent for buying this beautiful book of Maine. 0 of 0 people found the following review helpful. GREAT BOOK ~ LOTS OF INFORMATION...!!!! About the Author Despite brief out-of-state interludes for college, grad school, and a stint as a ski bum, Hilary Nangle has never been able to resist the lure of her home state. She grew up on Maine's coast, spending much of each winter skiing in the western mountains. Her sense of wanderlust was ignited when she became a whitewater-rafting guide on the Kennebec River, which gave her a chance to explore the central and northern regions of the state. When she tired of her parents asking when she was going to get a real job, she drew on her writing skills and began seeking editorial work. She started out editing professional ski tour publications, and then became a managing editor for a food trade publication and later a features editor for a daily newspaper. She currently works as a freelance writer and editor. Hilary never tires of exploring Maine, always seeking out the offbeat and quirky, and rarely resisting the invitation of a back road. To her husband's dismay, she inherited her grandmother's shopping gene and can't pass a used bookstore, artisans gallery, or antiques shop without browsing. She's equally curious about food and has never met a lobster she didn't like. Hilary still divides her year between the coast and the mountains, residing with her husband, photographer Tom Nangle, and their oversized dog. Both share her passions for long walks and Maine-made ice cream. To follow Hilary's travels, visit mainetravelmaven.com.
