**Deke Castleman, Don Pitcher : Moon Handbooks Alaska-Yukon (6th ed)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Moon Handbooks Alaska-Yukon (6th ed):

6 of 6 people found the following review helpful. Alaska - Yukon Handbook By A Customer This book has been truly invaluable in preparing for a trip. It is not written in the normal dry style of many travel planners, but with wit and humor. As I read through the tidbits on the communities the author's dry humor and research come through. He is not afraid to tell you where the tourist traps are and when those self-same traps are worth a look because of the tacky items in them. The commentaries are honest and straight forward. Well worth the read if you are planning a trip to Alaska. 7 of 7 people found the following review helpful. Keeping The Wheel Turning By David Stanley I'm the original author

of this book, having researched and written the 1st edition in 1983. After that, I got very involved in writing about the South Pacific islands and had to bow out, so I'm happy to see the way Deke and Don have developed the book through five subsequent editions. Last summer my wife and I returned to the area and tried following my old edition. It was striking how little had changed and we enjoyed our trip immensely. We pitched our tent on some of the same sites I'd used nearly two decades earlier! I suggest you use the far superior new edition of Alaska-Yukon - it's a wonderful part of the world, and you're in for a real adventure.

Extensively revised and updated edition now includes sections on remote areas of the Alaskan bush-- The only in-depth guide to the vast Yukon With the most wilderness acreage in the country, Alaska offers outdoor activities that include everything from hiking trackless tundra with grizzlies nearby to kayaking through glaciers among orcas and otters. Also covered are mountain climbing, biking, backpacking, and camping as well as fishing and other shoreline sports. Cities and towns are fully described: what to do, where to stay.
