Bill Weir : Moon Handbooks Arizona before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Handbooks Arizona:

0 of 0 people found the following review helpful. Don't explore Arizona without this good book. By D. E. Cheney Nice info to explore Arizona and learn the secrets of places you can visit. 0 of 0 people found the following review helpful. Great Resource By Theodore Sheldrake The Moon handbook was an excellent resource for my recent trip to Arizona!! I constantly referred to it. I traveled from Bisbee to Page traversing the state from South to North. I agreed with most of the "Must See" places even though it tends to recommend "elite" sites and restaurants (at least in my opinion). I always enjoyed the restaurants they suggested but stayed away from the "Must See" ones as they were quite expensive. If you're going to Arizona you must see Sunset Crater National Monument. It was incredible!! Happy Travels! 2 of 2 people found the following review helpful. Good Reference By Rv'eer We have purchased about 7 Moon Books with

Arizona being the latest purchase. Good reference books---up to date and easy to read. We find them better than the AAA Tour Books. A fair price. Needs to be kept up to date with changes occurring so often,it is a good idea to check the "published date"

From finding top cultural attractions in Phoenix and hiking through the Grand Canyon to exploring Navajo and Hopi culture, Moon Handbooks Arizona is the guide to the best the state has to offer, both on and off the beaten path. Practical information includes suggested travel strategies and lists of must-see sights, plus essentials on dining, transportation, and accommodations for a range of budgets. Complete with color photos, illustrations, maps, and details for rafting the Colorado River, seeking spectacular vistas in western Arizona, or camping in the desert, Moon Handbooks Arizona gives travelers the tools they need to create a more personal and memorable experience.

"The latest in the batch of Moon Handbooks releases proves again that Moon is one of the finest travel series around. What sets Moon apart from most most guidebooks is the attention to detail, and more importantly, a respect for the topic."
