**Victoria Day-Wilson : Moon Living Abroad in Belize** before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Living Abroad in Belize:

15 of 17 people found the following review helpful. interesting bookBy murseaI purchased this book with the idea in mind that I may retire to Belize, and wanted some good information about it's different areas, gov't, websites for more info. etc... It met my expectations and went a bit beyond, with recommendations for reputable builders, real estate people, testimonials of people who've already moved there, and so on. I was more than pleased with the book, the

information, and the price, as well as the speed of delivery, and packaging. I would purchase from them again. I have used a couple of other Moon guides and have always felt the information given was very helpful. 7 of 8 people found the following review helpful. Good Info! By Rick Chollett Lots of good information in this book. My favorite is the resources portion in the back. I've read numerous books on Belize in the last two years and my wife and I will be heading there to live within the next two years. 0 of 0 people found the following review helpful. **About the Author** Writer, journalist, and photographer Victoria Day-Wilson grew up in the highlands of Kenya, East Africa, where her natural surroundings inspired her to develop a passion for photography. That's also where she began her career as a journalist, writing for national, regional, and foreign press. After almost moving to Spain, she ended up in England, where she continued writing and started working as an editor. She also spent a few years working in the Middle East. After finding out that the UK wasn't quite her cup of tea, Victoria and her family gazed at a globe and decided that Belize's climate, amazing fauna and flora, pioneering spirit, and sense of space and freedom made the country an interesting option. They found their dream property on the banks of the Macal River in 2006. She has since gotten to know Belize intimately, traveling the length and breadth of the country. Today, Victoria splits her time between Belize, Kenya, and the UK.
