Julie Meade : Moon Metro New York City before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Metro New York City:

1 of 1 people found the following review helpful. Could be betterBy inn.j.Would have been much better if the authors gave more detailed subway information for the attractions. I am a native New Yorker and have always used nyc subways as they are the best transportation for getting around nyc. However, it is a big sprawling system . The line # stop would have been a great help even to a native new yorker.I can imagine how an out of townner could feel in the maze of nyc subways.0 of 0 people found the following review helpful. This is a great little handbookBy Native OregonianThis is a great little handbook. It breaks the city down by quadrants, with really accurate fold out maps and lists museums, restaurants, bars, etc. It's going to be a great reference when I travel to the city in April.0 of 0 people found the following review helpful. Four StarsBy Robert J. WilshireWe used it a lot on our trip to NYC last spring. It was very helpful.

Moon Metro New York City is the definitive guide to the hottest sights, shops, restaurants, amusements, and hotels that the Big Apple has to offer. With vivid color photos and discreet fold-out maps detailing all the must-see neighborhoods, this sleek guide highlights New York City's top sights as well as the spots only the locals know about. Clean, concise, and compact, Moon Metro New York City shows visitors where to eat in the East Village, shop in Soho, grab a cocktail in the Meatpacking District, and catch a show in Midtown.Moon Metro guidebooks take urban travel to a new level with an innovative fusion of style, function, and hip insider advice.
