**Tricia Cornell : Moon Minneapolis and St. Paul (Moon Handbooks)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Moon Minneapolis and St. Paul (Moon Handbooks):

I'd skip this one and move on. 0 of 0 people found the following review helpful. Good Book By Mari Lots of history and tidbits that were useful. I liked the way the book was organized. Maps at the front of the book were very helpful. 1 of 2 people found the following review helpful. Guidebooks are essential! By Igby This is the first time I have used Moon Handbooks. I am a big fan of Frommer's. I think this handbook did a good job of getting us the most out of our long weekend to Minneapolis. A great list of day walking and what one must see. The sight maps are also very easy to read and detailed. The handbook could do a little

better job of getting you where you are going. Frommer is so specific of twists and turns and getting you to a destination with a bit of hand holding. Completely trustworthy restaurant recommendations!
