The caption of this books refers to Camping and RV. Well this is a book about camping. If you are looking for RV places entries are few and far between with missing info about hook-ups etc. One description even states that the camp is "small enough to keep out RVs". Campers go ahead but Rvers, this one is not for us.0 of 0 people found the following review helpful. Very useful! love it!By StephVery helpful descriptions. Love the scenic ratings. Laid out in a very easy to read, easy to follow way. Would recommend to anyone who is looking for a good summary of the many great camping locations in MN. Liked it to much I bought it for my dad who has an rv too.
