Susanna Henighan Potter : Moon Nashville and Memphis (Moon Handbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Nashville and Memphis (Moon Handbooks):

It means it is not good book. Only several first pages are colored and when I will compare this badeker with any other from DK publisher there is not reason buy any book from Moon anymore. This one was my first book from moon I saw more Moon's book in library and I am sure that I will not buy any other. I bought several books from DK publishing and I like them match more. There are more expansive but match better for me .1 of 1 people found the following review helpful. comprhensive but not inclusiveBy Spencer BennettThe book is a good survey of the two cities but is not comprehensive in its description

of restaurants and attractions for both. A good compromise if you don't want specialty books for both locations. Also includes cities between the two .
