It gave us some basics, but left out a lot that I thought was pretty important.For instance, there was nothing in the book about the huge, amazing and futuristic looking wind farm just outside of Palm Springs. We didn't know about it until we passed it on the highway. It's incredible, and you can go on tours. There was nothing in the book about it. I would have liked to plan a tour while there, and would have wanted a book that gave me advice on which tour was the best.Also, after we got off

the plane, we wanted to dine al fresco so we chose one of the restaurants that the book said had outdoor seating. It didn't have any outdoor seating. In fact, the manager looked at us like we were crazy when we asked where the patio was.0 of 1 people found the following review helpful. Five StarsBy Beverly G. MoreauGreat seller! Easy transaction!
