Clement Salvadori : Motorcycle Journeys Through California before purchasing it in order to gage whether or not it would be worth my time, and all praised Motorcycle Journeys Through California:

2 of 2 people found the following review helpful. Great Stories and Many Great ToursBy John E. LincolnUnlike a few critics / reviewers, I enjoy Clement Salvadori's musings. I have his 101 Tales, and now this, and so far thoroughly enjoy it. The first two tours he describes, the south Pacific coast and Angeles Crest (very cold in Feb, even with thermal underwear on), I rode in the 60's on a then new Honda SuperHawk (305), and enjoyed both. Some of the other

routes I've also traveled by car, truck, or MC (especially east of Sacramento, Hwy 49) and his accounts brought back many happy memories. Maybe another reason is the fact that I calculate his age by his writings, to be close to mine (71), so I always look for any techniques to adjust for the aging process as well (if no more than slowing down and more smelling of the roses). 0 of 0 people found the following review helpful. Five Stars By Customer great read, also a good reference book. 0 of 0 people found the following review helpful. One Star By Jon Very dated. Unimaginative routes. Will not buy another book by this author.

This book is about roads - sweeping roads high along the coast, lonely roads amidst desert splendor, and sporting twisties through grand forests - superb routes that offer some of the best year-round riding in the world. From Los Angeles to the Northern Sierra Nevadas, Clement Salvadori describes dozens of cycling trips. Numerous sidetrips, detours, connecting routes, and dual-sport diversions will encourage you to truly make your trip your own. Leave your luggage behind and explore the beauty of California!

"...an excellent book...Great detailed route directions...buy the book, rent a bike, and hit the road." -- Shaun C., reader "...chock full of color photos and easy-to-follow maps...full of backroad recommendations...plus a lot of in-depth information." -- Free 2 Wheel "...stuff it in your tankbag, read about a trip at breakfast,...and take off for an excellent day's ride." -- Motorcycle Sport Leisure From the Inside Flap A long-time resident of California, Salvadori will guide you along some of the lesser-known motorcycling gems in his home state, as well as the memorable routes catalogued by list-baggers. Welcome bits of history, commentary, and notes from the author will give you plenty of good excuses to stop, as well as things to ponder as the miles roll by. Salvadori describes dozens of trips, most of which are loops clustered around the 13 convenient 'base camps' he suggests around the state, so you could leave your luggage and explore an area unencumbered for several days. Although the author recommends accommodations to help your planning, the numerous sidetrips, detours, connecting routes, and dual-sport diversions will encourage you to truly make your trip your own. About the Author Clement Salvadori bought his first motorcycle as a teenager and has been riding ever since -- in more than 70 countries on six continents. A well-known name in motorcycle journalism, he has written over 1,000 articles for several dozen motorcycle magazines, including a monthly column in Rider magazine entitled "Road Tales."
