The story appeals to boys and girls alike as the action moves swiftly in different directions. From spotting fossil poachers to going into an underground cave to discovering fossils and running into the poachers again at Mount Rushmore is a real page turner. Educational maps, sidebars and photos intrigue, but do not overload readers with national park information. After vicariously experiencing the beauty and confines of Wind Cave, one is sorely tempted to join a grotto club and go spelunking! Like all of the Parker family national park adventure series written by Mike Graf this is an engaging read. 0 of 0 people

found the following review helpful. Great for read aloud!By CustomerWe happened to see the author at a book-signing on our vacation to Yellowstone this year. He signed one of his books and we read it all the way home. Once we got back, we ordered one book for each of the parks we have visited. They have a nice balance of exciting plots, interesting characters, and information about the history and nature in the national parks. Highly recommended!0 of 0 people found the following review helpful. Four StarsBy N. BruhnGreat!

Each book in the Adventures with the Parkers series for kids 8-13 takes the Parker family to a popular national park and is packed with adventure as well as interesting facts about park activities, natural history, outdoor safety, and much more.

Reading Mr. Grafts wonderful and often breathtaking vacation adventures of the Parker family made me want to grab my backpack and head for the high country.Marsha Holland, literacy coordinator
