Scott Rapp : Mountain Biking Portland (Regional Mountain Biking Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mountain Biking Portland (Regional Mountain Biking Series):

4 of 4 people found the following review helpful. A Great Little Book!By C. D. ToporekHaving just moved to Portland, I was dying to find places where the townsfolk got dirty (on their bikes, that is). While I didn't buy this book from (sorry, got it at Powell's downtown), this is a great little guide to mountain bike rides in Portland and the surrounding areas. The book details each ride, rates them on their difficulty, and conveniently categorizes them so you can plan your day in the dirt. The best thing about this book is its size, because it's small enough to cart along with you on the trail. I've even taken to crossing off the rides as I complete them.If you're riding in Portland, you should get this book!
